

Endorsements/What People are Saying

“Tears stream down my cheeks and a chill rushes down my spine as the last strains of “Free” fade at the end of *Somebody’s Daughter*. I’ve worked with sex addicts for over a dozen years, and this album tells their collective story in the most powerful way I’ve ever seen. I didn’t expect to be so touched.....and I’m grateful.

Somebody’s Daughter breaks the silence about pornography and answers the challenge issued by one recovering addict on the DVD to “Tell someone!” Indeed, *Somebody’s Daughter* tells the world about the hope of recovery from pornography addiction.

Somebody’s Daughter goes beyond offering hope to men struggling with pornography. It speaks also to the devastated wives who love them. One wife shares with painful elegance about her journey to forgive her husband’s betrayal and to stand with him as they commit to freedom for themselves and future generations.

Raw and realistic, griping, tender, and convicting - *Somebody’s Daughter* stands in the gap between Satan’s promotion of sexual sin and God’s redeeming hope for a free future. I recommend it highly. In fact, I’ll insist that anyone touched by this issue gets a copy.”

*Marnie C. Ferree, M.A., LMFT

“I believe there is an unspoken message here to every man who will watch this DVD:

**WARNING, WARNING, WARNING
PORNOGRAPHY WILL WRECK YOUR LIFE, GET THE HECK AWAY FROM IT, NOW**

The *Somebody’s Daughter* DVD is a powerful tool that God will use to show men the prison they’re in and that there is a way out that other men and their wives have found. WELL DONE.

The personal testimonies given on the CD lower the barrier for men who are having a hard time overcoming the shame and guilt of pornography. Hearing that other men have experienced the same feelings makes it easier for them to be honest about what’s going on in their lives.

I am going to hug my daughter.”

"I am writing to express how profoundly important your "Somebody's Daughter" is for men in the church. There is nothing like the power of visual images, especially for men. The "Somebody's Daughter" DVD presents a compelling and heart-breaking case against the destructive effect of pornography in our culture.

Pornography is ravaging the power of Christianity before our very eyes. When these video resources are matched with inspired music, lyrics and personal testimony, the war against pornography is engaged, and new territory is claimed for Christ.”

"The Somebody's Daughter DVD is the one of the most powerful tools I have ever used in counseling. This moves therapy beyond words to engaging a client's many senses. The music, video and real life stories help clients connect in ways that talking in therapy would never do.

It helps men move from seeing women as objects of gratification to children of God. This realization alone can be a powerful step in a man's journey toward healing and recovery."

"This CD offers a creative, biblical approach to addressing a much-needed topic for men and boys, fathers and sons, daddy's and daughters, etc. The idea of approaching this subject via short songs and testimonies on a CD is especially appealing, because it doesn't require men to read, study, or sit in a classroom in order to be impacted and changed by the Word of God and the Spirit of God."

*Sid Woodruff, Men's & Deacon Ministry Specialist

"A good friend of mine from church gave me a CD titled *Somebody's Daughter: Confronting the lies of pornography*. I listened to that CD over and over. The spoken testimonies, the songs and the thought of being sexually pure - oh how it spoke to me. That is when I decided enough is enough. Make no mistake about it; God orchestrated the placement of *Somebody's Daughter* into my hands. It saved my marriage and my family."

"Just wanted to tell you after listening to 'Somebody's Daughter', my feeling is that every man should have a copy of the CD! As many sexually addicted people don't see the harm in being addicted, it allows them to see the pain that their spouse goes through, and that the healing road is a difficult one for that spouse."

If they heard *Somebody's Daughter* ahead of time before any addiction started, the marriages that could preventatively be saved and relationships that could be saved would be incredible. Thanks for developing this CD, it will help many!"

is hard to listen to but I need it everyday. Christian men would do well to have a copy in their car for morning worship on the way to work. My wife bought it for me. We are working as a team to combat this horrible satanic attack on men of our time."

Marty Wheeler, Franklin, TN

“My wife and I had not had sexual relations in twenty years. She’d had a medical condition that had made sex painful, so I had retreated into pornography. We lived together in this denial for two decades.

Then a friend gave me *Somebody’s Daughter*. After listening I was convicted that my choice had been a mistake that had created a horrible distance between me and my wife. I went to her and asked her to listen to the CD with me.

As we listened together she got in touch with her anger over the last twenty years. First we screamed - then we held each other and cried and cried.

Thank you for giving me back my life...for giving me back my wife.”
